What about sharing someone else's data?

You must have permission to share someone else's personal data with us

If you want to give us details about other people who are covered by insurance, you must make sure you have shared the relevant information from this notice with them. You must also make sure you have their permission before you:

- give us any personal data about them
- make decisions on their behalf about how we keep and use their personal data

How does Tesco Bank use your personal data?

Necessary uses – providing our products and services

To provide our services to you we will need to use your personal data.

We will need to use this personal data at all stages of our relationship with you, including:

- when you request a quotation
- when you take out a product or service or require to use a service
- during the time we have a relationship with you
- and for a period of time afterwards

The way we use the personal data about you includes:

- in order to match you with a Clubcard (for more information see ‘How Tesco Bank and Clubcard work together’)
- to provide tailored marketing to you (for more information see ‘Will Tesco Bank send me marketing information?’)
- To deal with complaints

It is necessary that we are able to use your personal data in this way

We can only provide these services if we can use your personal data in this way.

The law says we must ask for certain mandatory information, and make certain checks.

Also, if you want to apply for our products or services, you must provide us with mandatory information.

We also use your personal data for other ‘legitimate business interests’

These are other uses allowed by law which are necessary to enable us to provide the products and services. These include:

- verifying your identity
- detecting and preventing fraud, other forms of financial crime, and other unlawful acts
- managing and operating our business
- improving our business (see below)

We may use your personal data to improve our business

The law allows us to use your personal data in reasonable ways to help us improve our business.

The ways we might use your personal data to improve our business are to:

- understand customers’ needs and requirements
- develop and test products and services
- carry out research and analysis on our products and services

When we use your personal data to improve our business, we always make sure we keep the amount of data we collect and use to an absolute minimum.

Will Tesco Bank send me marketing information?

We may use your personal data to tailor marketing to you

We do this so we can tell you about things we think you would like to know about.

We may send marketing by post, telephone, text, email and other electronic means.

We may also provide tailored marketing to you in other places, such as at the tills when you shop at Tesco.

We will only ever send you information about things we think are relevant to you.

Some tailored marketing needs your agreement before we can send it to you; we will only send you this type of marketing with your permission.

Learning more about you and tailoring things for you

Using your personal data to help us understand more about you

We may look at your Clubcard data in different ways; to help us understand more about you and people like you. We call this ‘profiling’. See the ‘How Tesco Bank and Clubcard work together’ section for more information.

When you take part in competitions, surveys or promotions we will collect and keep information such as your answers, feedback and contributions to questionnaires.

We may combine different sources of data we know about you

We may have data about you from several different sources – for example, from your Tesco Bank account, your Tesco Clubcard, and your visits to Tesco Group websites.

The personal data we get from your account can include data about your transactions and how you manage your account.

The personal data we get from your Tesco Clubcard can include data about your shopping habits and the types of things you buy.

The personal data we get from your visits to Tesco Group websites may include data you have given us when requesting a quote, even if you didn’t go on to take out a product with us.

We may sometimes get data from other external sources

For example, we may get personal data about you from third parties about when policies are due for renewal. This will only occur where third parties have ensured that passing your personal data to us is permitted by the data protection laws.

We may combine data from different sources together to tailor marketing information for you

We will only send you information about things we think are relevant to you.

We may also use your personal data to tailor online adverts to you

We will sometimes use your personal data to tailor the adverts you see when you are online.

These might be on Tesco Group websites, social media sites, or other sites that sell advertising space. Personalised adverts show the **AdChoices** logo: Click the logo to learn more about how online ads are made relevant to you.

Websites where you have an 'account' – such as Gmail or Facebook – will also have their own pages which explain their own information policies.

We may use personal data we know about you to offer you tailored products

We may use personal data we know about you to offer you products we think you might like.

When we do this, we might use data about how you manage your account or policy, including your credit history. We might also combine this with data we know about you from your Tesco Clubcard. Pre-approved offers are based on information we already know about you. When we make you a pre-approved offer, we do not do external credit checks.

We will only ever use your personal data in this way so that we can offer you better deals than you would get if we didn't use that information.

Opting out

You can opt out of us using your personal data for marketing at any time

We consider that our marketing and profiling activities can be to our mutual benefit as it helps us to ensure that we only tell you about products and services that we believe will be of interest to you.

It is in our legitimate interests to ensure we carry out marketing in the most effective way, although we will always ensure that we carry out any direct marketing in line with your marketing preferences. Plus, there will always be an option for you to opt out or say no to us using your personal data for marketing during any application process for our products or services.

To opt out, just let us know in one of these ways

On emails: by clicking 'opt out' or 'unsubscribe' (usually at the bottom of the email).

By phone: by calling us on **0345 293 9475** (all our numbers are listed at **tescobank.com**).

How Tesco Bank and Clubcard work together

We use Tesco Bank and Clubcard data together to bring you better offers

Clubcard data includes your shopping habits and the types of purchases you or your household make.

We use Tesco Bank and Clubcard data together in different ways to tailor our communications and to try to bring you better terms, deals or offers than you would get if we didn't use the information.

We try and match you with Clubcards at your address

We use data that you provide, such as your name and address, to find any Clubcard(s) that are linked to your address. That might be your Clubcard, the Clubcard of other family member(s), or the Clubcard of house or flat-mates.

We may use data about these Clubcard(s) to help us work out what offers we think you might like. When we do this, we will only ever use the Clubcard linked to your address which gives you the best terms, deals or offers.

We use your Clubcard data to help us work out whether we can offer you certain products, and what discounts, deals or offers we can make you

We do this by looking at your Clubcard data in different ways to help us understand more about you (we call this 'profiling'). Profiling includes things such as how likely we think you are to pay back money we lend you, how often you use other Tesco products and services, and how you prefer to shop. Profiling helps us to create a number of 'Clubcard scores', which we can then use as one of the factors in our automated decision-making process.

Because Clubcard profiling allows us to tailor offers specifically for you, this means that different Clubcard customers may get different offers. However, Clubcard customers will always receive better offers than non Clubcard customers.

We may calculate a new 'Clubcard score' for you when your policy changes

We may calculate a new 'Clubcard score' when we give you a quote, or offer you a renewal. We do this so we can make you, as a Clubcard customer, better and/or more tailored offers.

How to get more details about how we monitor our automated decision-making

You have rights relating to automated decision-making.

Information can be found at www.tescobank.com/help/contact-us

Ongoing use of your Clubcard data

If you take a product or service from us, we will continue to use your Clubcard data to help us maintain our relationship with you.

Who do Tesco Bank share your personal data with?

Why we share your personal data

In order to provide our products and services to you, it is necessary for us to share information with third parties. For some third parties we need to share your personal data because they provide a service which we do not provide (such as the Insurers or the Add-on Providers). For other third parties, we are required to share your personal data to detect and prevent fraud and other forms of financial crime, to ensure that we are lending responsibly or to ensure that we are meeting our regulatory requirements.

Tesco Bank will only share your personal data

- where we have your permission
- where the law says we must
- where sharing the personal data meets the requirements of the data protection laws

Whenever we share data, we only share the amount necessary to achieve the objective of the sharing.

Tesco Bank will only share your personal data with these people:

- with anyone you nominate to act on your behalf
- with regulatory bodies and authorities
- with other companies, (if we are, or are considering, transferring the rights and obligations we have with you)
- with another insurer, if we have invited you to renew your insurance with them
- with Tesco Group and Tesco stores, in connection with your Clubcard (for example, to allocate discounts, or where you have agreed to receive marketing)
- with other Tesco Group companies. www.tescopl.com/about-us/
- with our market research agency to contact you with relevant surveys
- with other financial institutions to detect and prevent fraud and other forms of financial crime and to comply with our regulatory obligations

How does Tesco Bank handle sensitive personal data?

When we need to use sensitive personal data

Sometimes we will need to ask you for sensitive personal data. For example, when dealing with an insurance policy, you might need to tell us about a medical condition. If required, to comply with data protection laws, we will ask for your explicit consent to use this data (data protection laws call this 'special category data' or 'sensitive personal data').

How we handle data about special circumstances

We handle data about any special circumstances as carefully and confidentially as any other data we hold about you. This includes data about things you tell us so that we are able to provide you with additional assistance (e.g. if you are hard of hearing) and also information that laws or regulations say we must record (for example, if any underlying medical condition has led to you appointing a Power of Attorney).

How does Tesco Bank use your personal data to contact you?

We will contact you in a variety of different ways

We may contact you by phone/post/email and SMS. If you have given us an email address or mobile number, we might also use these to contact you with servicing messages about your policy and for ongoing policy management.

We keep confidential data to a minimum via email and text

This is because emails and texts are less secure (you should never send us any confidential data via email or text).

Sending your personal data to other countries

We will only send your personal data outside the EEA if we know it will be well protected

Sometimes we might send your personal data to another country if, for example, our service provider has a data centre overseas.

All countries within the EEA have broadly the same data protection laws. Before sending your personal data outside the EEA, we check that the recipient will be able to keep your personal data secure and that:

- the EU Commission confirms that the recipient is established in a country which offers essentially equivalent protection to that provided within the EEA; or
- it is to a private US company that has self-certified with the Privacy Shield

If neither of these apply, then we ask the recipient to sign the EU Commission's 'model contract'. This means they must meet EU standards of data protection.

When your personal data is in another country, it may be accessed by law enforcement agencies in those countries. They do this to detect and prevent crime, or because the law says they must.

For more information about sending your personal data overseas, you can write to: The Data Protection Officer, Tesco Bank, PO BOX 27009, Glasgow, G2 9EZ.

How long does Tesco Bank keep your personal data for?

We keep your personal data for a reasonable period only

How long we keep your personal data will depend on:

- what type of product or service we are providing for you
- how long laws or regulations say we must
- what we need for fraud and other financial crime prevention
- what we need to lend responsibly
- other legitimate business reasons (for example because we need to respond to a complaint or legal claim)

How long do we keep data when you no longer use our services?

We keep your personal data once your insurance policies have lapsed for 7 years.

In some cases, your insurer may be required to store personal data relating to claims for longer.

During this period, this data will only be accessed and shared with us in exceptional circumstances.

When you have applied but not taken out a product

We keep insurance quote data for up to 15 months. We do this to help us understand more about you, to help develop our products and services, and to protect you and us against fraud and other forms of financial crime. We may also use this information if you apply for a product again in the future.

For marketing purposes

We keep your personal data for 3 years after your last activity with us.

Will you ever keep my data for longer than these periods?

In some cases, we may retain your personal data for longer than the periods stated above where it is needed for an ongoing investigation, legal proceedings, insurance claims, an outstanding audit or for our legitimate business purposes. We will only retain the personal data that is necessary for these purposes and will aim to delete or anonymise data that is unnecessary for these purposes within the periods stated above wherever possible.

What happens if Tesco Bank changes how we use your personal data?

We will contact you if there are any important changes to how we use your personal data

If we think it's a change you would not expect, we will let you know.

Some changes might need your consent, or need you to opt out

If this is the case, we will always wait until you have let us know your decision before making any changes to the way that we use your personal data.

Your rights

You have the right to know what data we hold about you

This is called your 'subject access rights'.

The law says that you are entitled to see what data we hold about you

If you ask us for this, we will give you access or send you a copy of all the personal data we hold about you (there are a few exceptions to this, such as access to personal data about third parties).

If you want a copy of your personal data, please use the 'subject access' form

You can find the form on our Privacy Notice page at:

www.tescobank.com/help/privacy-and-cookies

We will respond to your request within one month.

We may get in touch sooner if we need extra information to help us find your personal data, or to verify your identity.

You have the right to have the personal data you have provided to us supplied to you in an easily transferable digital format

This is known as the 'right to data portability'.

This means you can ask us to send your personal data in this format to you, or to another organisation (for example, another bank or insurer).

You have the right to change or amend your personal data

If you think any of the personal data we hold about you is incorrect or incomplete, let us know and we will change it.

You have rights in respect of automated decision making (including profiling)

An automated decision is one that is made by our systems rather than by a person and we use these to perform automatic checks. This helps us make lending decisions, work out what products and services we can offer you, how much to charge for some products and services and helps to prevent fraud. Automated decision-making helps us to decide things like how likely it is that someone will pay back the money they owe us. It takes into account factors such as the amount of debt someone has, and how they have paid off debts in the past etc. The benefit of automated decision making is that we can quickly make key decisions.

You have the right to:

- Express your concerns and object to a decision taken by purely automated means
- To request that a person reviews that decision

You have the right to stop us using, restrict us using, or request that we erase the personal data we hold about you

If you want us to stop using, or restrict our use of, your personal data, or you want us to erase it entirely, please let us know. There are times when we may not be able to do this – for example, if the information is related to an existing or recently expired contract between you and us, or if the law says we need to keep your personal data for a certain amount of time.

You have the right to withdraw your consent at any time

Sometimes we need your consent to process your personal data. If you have given consent, you can change your mind and withdraw it. To do this, get in touch by using the relevant contact details from our website.

However, we do not always need your consent to use your personal data. There is some information this doesn't apply to. For instance;

- the information we need in order to provide your product or service
- the information that it's necessary we have in order to run our business or to provide the products or services in a more effective way (known as the "legitimate interests" condition), or
- the information the law says we must collect and use

Contact us for more information about how we handle your personal data

If you have concerns about how we handle your personal data, or just want more details, please call us (see contact us section on our website) or write to the address below. We will try and sort things out as quickly as we can. **Our address is:** The Data Protection Officer, Tesco Bank, PO BOX 27009, Glasgow, G2 9EZ.

For more data about your rights, visit the Information Commissioner's Office website

The Information Commissioner's Office is the UK's independent authority set up to uphold information rights, and promote data privacy for individuals. Their website is www.ico.org.uk

If you have a complaint or concern about how we have handled your personal data and we have not been able to sort it out to your satisfaction, you have the right to lodge a complaint with the ICO.

Who will we share your personal information with?

On occasion, we will share personal information within the MS&AD Insurance Group or with the following third parties for the purposes laid out in the table above:

- The policyholder (where you are an individual named on an insurance policy), or anyone authorised to act on their behalf
- Providers who may need your information in order to provide a service to you, including our Black Box fitting provider
- Our premium finance provider (for instalment customers)
- Insurers who support our products (e.g. our motor legal protection provider / providers of any optional extras purchased alongside your policy)
- Providers of claims services (such as external claims handlers, our accident repair network, medical experts, claims investigators and private investigators)
- The price comparison site used and Tesco Bank

- Third party suppliers we appoint to help us to carry out our everyday business activities including IT suppliers, actuaries, auditors, lawyers, debt collection agencies, document management providers, outsourced business process management providers, our subcontractors and tax advisors

- Providers of demographic data and vehicle data
- Financial crime detection agencies and insurance industry financial crime databases (such as for fraud prevention and checking against international sanctions) including the Claims and Underwriting Exchange (known as “CUE”), and CIFAS
- Insurance industry bodies and databases (including the Motor Insurance Database, the “MID”)
- Government agencies and bodies such as the DVLA, HMRC, Department for Work & Pensions, or professional regulators (e.g. the Financial Conduct Authority in the UK)

- Our reinsurers
- Selected third parties in connection with any sale, transfer or disposal of our business

Sharing of Telematics Data: Once we have installed and activated the Black Box in your car, it will record and provide us with data about the driving style of all drivers of the car. It will collect a wide range of driving data such as date, time, location, speed, acceleration and braking. The Black Box also allows us to operate the Accident Alert service and to understand the circumstances relating to an accident. By assessing the data, it allows us to provide customers with advice on safer driving.

We will share driving data only in the circumstances shown below:

- With third parties where we need to do so to manage the insurance policy or any claims (e.g. with our accident recovery partners if the car needs to be recovered following an accident)
- Between departments within the company and/or Group. For example:
 - to help reduce fraud, by checking if another person is making a false claim against the driver; or the driver is making a false claim against someone else
 - to encourage safer driving; by examining how various groups drive and at what time of day the most incidents happen
 - to assist in calculating tailored renewal premiums for policyholders
 - to research and refine techniques for analysing Black Box data, including looking at road safety issues such as analysis of certain roads to identify the risks they represent
- Analytics suppliers use the data for research (e.g. to improve road safety). Any information that we share is made anonymous and does not contain any information that is classed as personal data under the data protection regulations. This means that none of the data can be linked to the policyholder

We do not provide policyholders (or their representatives) with driving data for use in civil claims or criminal investigations and proceedings.

Sometimes the Police and other regulatory bodies (such as HMRC or Department of Works & Pensions) may request that we send them information from the Black Box about journeys made in the insured car. This is so they can investigate road traffic accidents, and also work to prevent, detect and investigate criminal and fraudulent activities. We will not normally release driving data or locational data unless the policyholder gives us permission to provide that information; we are required to do so by law (e.g. where the police obtain a Court Order for the information); or we suspect fraud or attempted fraud.

As the telematics data obtained will relate to the car, not necessarily just to the policyholder, it is possible that data relating to any driver may be disclosed when sharing telematics data.

If you would like more information about any of the above uses of your personal information, please see section 10 “Contact us”.

Where data cannot be anonymised it will include personal data shared by most web browsers such as (but not limited to) your IP address, location, operating system, web pages visited and areas of those web pages ‘hovered’ over, and will be sent only to our providers of demographic data and data analytics. We have provided you with links to each of their websites so that you may take the time to read up on their data protection policies yourself.

What will we use your personal information for?

We may process your personal information for a number of different purposes. We must have a legal ground for each purpose, and we will rely on the following ground:

- We have a **genuine business need** to use your personal information such as maintaining our business records, monitoring usage of our websites and improving our business model and services. When using your personal information in this way, we have considered your rights and ensured that our business need does not cause you harm.

We've shown how we use your personal information, and the legal grounds we rely on, in the table below:

Type of Processing	Grounds for using personal information	Grounds for special categories
Communicating with you and responding to any enquiries you have	• We have a genuine business need <i>(to respond to any enquiries)</i>	• We will not process your special categories of information for this purpose
Monitoring usage of our websites	• We have a genuine business need <i>(to assess usage of our websites)</i>	• We will not process your special categories of information for this purpose

If you would like more information about any of the above uses of your personal information, please see section 10 “Contact us”.

4. What is our approach to sending your personal information abroad?

Sometimes we (or third parties acting on our behalf) will transfer personal information that we collect about you to countries outside of the European Economic Area (“EEA”).

Where a transfer occurs we will take steps to ensure that your personal information is protected. We will do this using a number of different methods including:

- putting in place appropriate contracts. We will use a set of contract wording known as the “standard contractual clauses” which has been approved by the data protection authorities
- transferring personal data only to those companies in the United States who are certified under the “Privacy Shield”. The Privacy Shield is a scheme under which companies certify that they provide an adequate level of data protection. You can find out more about the Privacy Shield at: <https://www.privacyshield.gov/Individuals-in-Europe>

If you would like more information regarding our data transfers, please see section 10 “Contact us”.

5. Marketing

We take privacy very seriously and will only use your personal information for the purposes laid out in this Privacy Notice. Unless you have opted out, we may contact you about marketing on behalf of Tesco Bank. Please refer to the ‘Will Tesco Bank send me marketing information?’ section within the Tesco Bank Privacy Notice to understand how we use information for marketing purposes.

Please be aware that we have a genuine business need to be able to contact you to discuss how your policy is being administered. This form of contact falls outside of your marketing preferences and must continue in order for us to be able to provide you with a policy effectively. This will never include marketing material and all information will be strictly related to your policy.

6. How long do we keep your personal information for?

We will keep your personal information for as long as reasonably necessary to fulfil the purposes set out in section 3 and to comply with our legal and regulatory obligations. We have a detailed retention policy in place which governs how long we will hold different types of information for. The exact time period will depend on the purpose for which we collect that information, for example:

Quotes:	15 months
Policies, including telematics data:	7 years
Claims:	7 years
Complaints:	7 years

In some circumstances depending on the nature of your policy and any claims made under it data may be retained for a further period in a 'locked down' system from which it is only accessed when a claim arises. It is retained for as long as a potential claim might be made under a policy.

Please note that Fraud prevention agencies can hold your personal data for different periods of time, and if you are considered to pose a fraud or money laundering risk, your data can be held for up to 6 years.

For more information about how long your personal information will be kept, please see section 10 "Contact us".

7. Automated processing

Where we have to make a decision about your insurance policy then most of the time we make decisions using automated processing. The process considers the information that you provide us as well as information from other sources such as search tools (e.g. Experian) to determine whether your application for insurance can be accepted and the premium price.

As part of the processing of your personal data, decisions may be made by automated means. This means we may automatically decide that you pose a fraud or money laundering risk if our processing reveals your behaviour to be consistent with money laundering or known fraudulent conduct, or is inconsistent with your previous submissions, or you appear to have deliberately hidden your true identity. You have rights in relation to automated decision making: if you want to know more please contact us using the details in Section 10.

If we, or a fraud prevention agency, determine that you pose a fraud or money laundering risk, we may refuse to provide the services or financing you have requested, or to employ you, or we may stop providing existing services to you. A record of any fraud or money laundering risk will be retained by the fraud prevention agencies, and may result in others refusing to provide services, financing or employment to you. If you have any questions about this, please contact us using the details in Section 10 below.

8. Your rights

Under data protection law you have a number of rights in relation to the personal information that we hold about you. You can exercise these rights by contacting us. We will not usually charge you in relation to a request.

The right to access your personal information	You are entitled to a copy of the personal information we hold about you and certain details of how we use it. We will usually provide your personal information to you in writing unless you request otherwise. Where your request has been made electronically (e.g. by email), a copy of your personal information will be provided to you by electronic means where possible.
The right to rectification	We take reasonable steps to ensure that the information we hold about you is accurate and where necessary up to date and complete. If you believe that there are any inaccuracies, discrepancies or gaps in the information we hold about you, you can contact us and ask us to update or amend it.

The right to erasure	This is sometimes known as the 'right to be forgotten'. It entitles you, in certain circumstances, to request deletion of your personal information. For example, where we no longer need your personal information for the original purpose we collected it for or where you have exercised your right to withdrawn consent. Whilst we will assess every request, there are other factors that will need to be taken into consideration. For example we may be unable to erase your information as you have requested because we have a regulatory obligation to keep it.
The right to restriction of processing	In certain circumstances, you are entitled to ask us to stop using your personal information, for example where you think that the personal information we hold about you may be inaccurate or where you think that we no longer need to use your personal information.
The right to data portability	In certain circumstances, you can request that we transfer personal information that you have provided to us to a third party.
The right to object to marketing	You have control over the extent to which we market to you and you have the right to request that we stop sending you marketing messages at any time. You can do this either by clicking on the "unsubscribe" button in any email that we send to you or by contacting us using the details set out in section 10. Please note that even if you exercise this right because you do not want to receive marketing messages, we may still send you service related communications where necessary.
The right to object to processing	In addition to the right to object to marketing, in certain circumstances you will have the right to object to us processing your personal information. This will be when we are relying on there being a genuine business need to process your personal information. Please note, in some circumstances we will not be able to cease processing your information, but we will let you know if this is the case.
Rights relating to automated decisions	If you have been subject to an automated decision and do not agree with the outcome, you can ask us to review it.
The right to withdraw consent	Where we rely on your consent in order to process your personal information, you have the right to withdraw such consent to further use of your personal information. Please note that for some purposes, we need your consent in order to provide your policy. If you withdraw your consent, we may need to cancel your policy or we may be unable to pay your claim. We will advise you of this at the point you seek to withdraw your consent
The right to lodge a complaint with the ICO	You have a right to complain to the Information Commissioner's Office if you believe that any use of your personal information by us is in breach of applicable data protection laws and / or regulations. More information can be found on the Information Commissioner's Office website: www.ico.org.uk . This will not affect any other legal rights or remedies that you have.

Please note that although we take your rights seriously, there may be some circumstances where we cannot comply with your request such as where complying with it would mean that we couldn't comply with our own legal or regulatory requirements. In these instances we will let you know why we cannot comply with your request.

In some circumstances, complying with your request may result in your insurance policy being cancelled or your claim being discontinued. For example, if you request erasure of your personal information, we would not have the information required to pay your claim. We will inform you of this at the time you make a request.

9. How we protect your information

The protection of your personal data is important to us. We take a number of technical and procedural measures to protect personal data. For example:

1. Where we capture your personal information through our websites, we will do this over a secure link using recognised industry standard technology (SSL) which encrypts data that is transmitted over the internet. Most browsers will indicate this by displaying a padlock symbol on the screen
2. We prevent unauthorised electronic access to servers by use of suitable firewalls and network security measures. We use strong internal antivirus and malware monitoring tools and conduct regular vulnerability scans to protect our internal infrastructure and also to protect communications we may send you electronically. Our servers are located in secure datacentres that are operated to recognised industry standard. Only authorised people are allowed entry and this is only in certain situations
3. We ensure that only authorised persons within our business have access to your data and conduct regular checks to validate that only the correct people have access. We promote responsible access to data and segregate who can see what data within the organisation

4. Internally in our organisation, we have password policies in place which ensure passwords are strong and complex and are changed regularly
5. We use secure email exchange where necessary for sensitive data and have monitoring on all email we send and receive
6. We schedule periodic checks of all security measures to ensure they continue to be efficient and effective, taking into account technological developments
